

Hands-on Exercise No. 3
DigiSkills 3.0 Batch-01
Graphic Design

Total Marks: 10

Due Date: 02/10/2025

Instructions:

Please read the following instructions carefully before submitting this Hands-on Exercise:

- Use MS Word and Adobe Illustrator to prepare exercise solution.
- You may consult tutorials and videos if the concept is not clear.
- Your submitted exercise will not be considered/counted if:
 - It is submitted after due date.
 - It is not in the required format (.doc or .docx)
 - It does not open, or file is corrupt.
 - It is copied (partial or full) from any source (websites, forums, students, etc.)

Learning Outcome:

After completing this exercise, you shall be able to:

- Design flyer/poster in Illustrator or Photoshop as per requirements.
- Use bold, eye-catching colors to make the message clear.
- Incorporate images, graphics, and illustrations to communicate the message.
- Add and format a promotional message on the poster.
- Export the poster in the required file format.

Problem Statement

Suppose you are providing design services, and the client gives you a poster design project. According to the client's requirements, you need to design a poster that spreads awareness about **online fraud and scams**. The design should warn people to stay safe on the internet and avoid sharing personal or financial information with strangers. The poster size should be **11×16 inches**, making it suitable for display in public places. Use a **simple and minimal design** with **bold, eye-catching colors** so that the message is clear and easily understood by everyone.

Requirements

1. The dimensions of the poster should be 11×16 inches.
2. You can take images from the internet, or you can do photography (if needed).
3. Add the promotional campaign/message to the poster.
4. Use Adobe programs such as Photoshop and Illustrator.
5. Use images, graphics, and illustrations to communicate the message effectively.

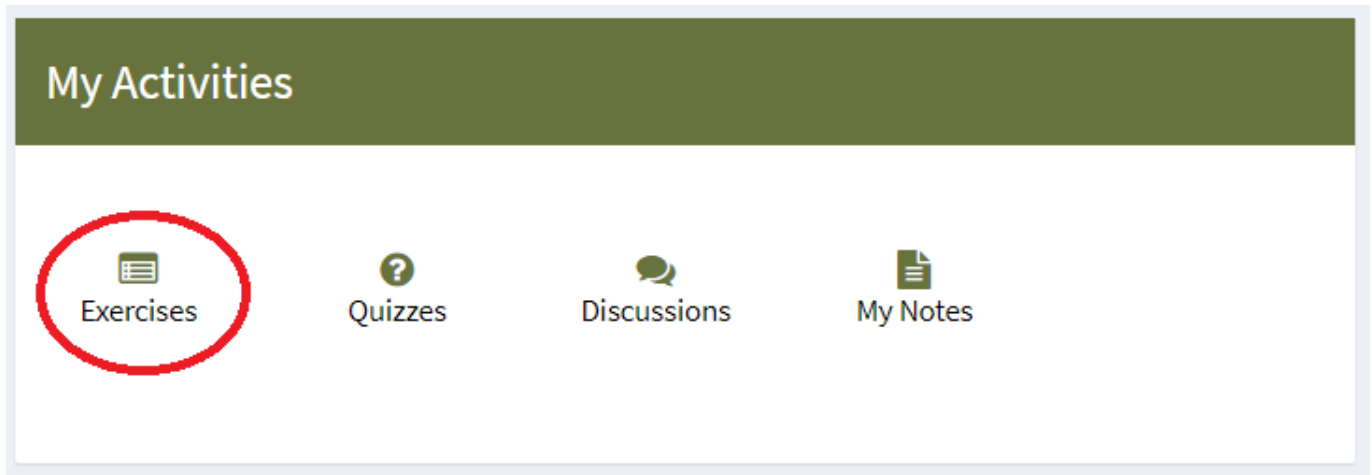

Note: Create an MS Word file with the screenshots of all the above-mentioned tasks. Your solution will be evaluated based on the steps you performed.

BEST OF LUCK ☺

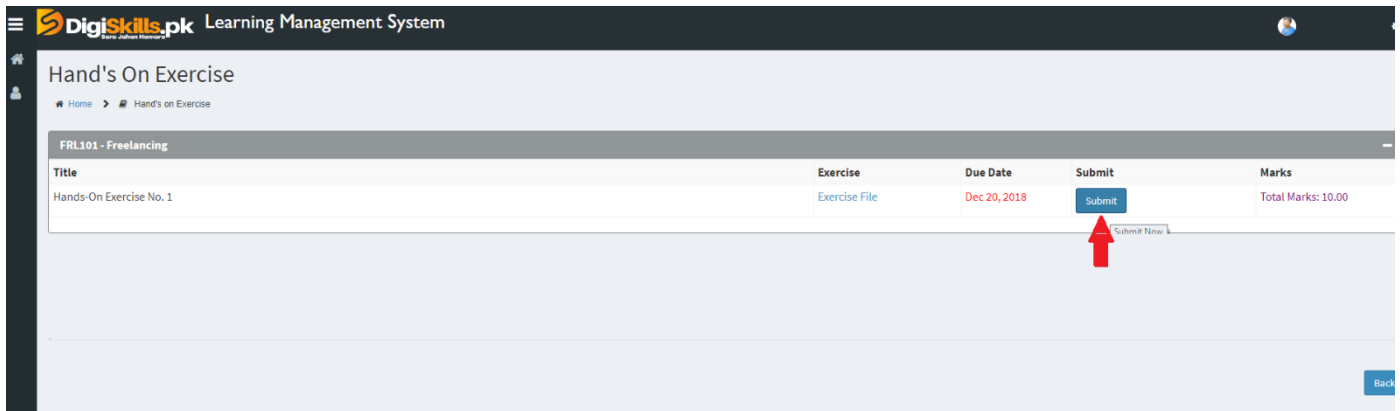

How to submit solution file on LMS?

Please perform the following steps for submitting your solution using LMS:

- 1) Login to the LMS
- 2) Click on the **Exercises** button within the **My Activities** section

- 3) Click on the submit button to upload your Solution.

- 4) Keep in mind to upload your Solution in .doc or .docx format
